Brief description:	<p>This 4-color, 8 ½" x 11", 3-hole punched, approximately 125-page text is shrink-wrapped with the CD containing the 25 PowerPoint case presentations. Designed for a case-based, group-interactive format, this 2004 revision of focused resuscitation topics provides a challenging and informative alternative for ACLS renewal. The instructor notes are educational tools that define and highlight the core educational objectives for each learning station and case through a theme of key concepts that change as the case progresses. New case material on special resuscitation situations and toxicology, including bioterrorism, is included.</p> <p>The instructor manual chapters have been restructured and are sequenced functionally to enhance the flow of the support material.</p>
Purpose:	For ACLS instructors who have been trained to lead the ACLS for Experienced Providers Course.
Date available:	June 1, 2004
