Is Your Practice Safe? An **OSHA** Update

Friday
November 9, 2018
9 a.m. - 12:15 p.m.

Location

Southern Regional AHEC
Third Floor, Classroom A
1601 Owen Drive
Fayetteville, NC 28304

Target Audience

Physicians, Physician Assistants, Pharmacists, Pharmacy Technicians, Nurses, Nurse Practitioners, Nurses Aides, Practice Office Managers, Allied Health and other helping professionals who desire the update .

Program Description

Just one incident can put the health and welfare of employees and patients at risk. These incidents may have a financial and reputational impact on your practice. What steps are you taking to ensure your practice is both a safe place to work and a safe place to receive care?

Attend this fast paced, lively session on how to position your practice to be in compliance with applicable state and federal regulations. This training will address measures to reduce the likelihood of a bloodborne exposure, the post exposure process, and a review of the Hazard Communication Standard and the Globally Harmonized System of Classification and Labeling (GHS). Bring your questions about employee safety and leave with checklists and practical application of current safety requirements. You don't have to dread the consequences of non-compliance!

The handouts for this program will be provided online through MyCE from SR-AHEC's website. Early registration is encouraged, as full access instructions will be mailed with your registration confirmation via e-mail.

Objectives

Upon completion of this knowledge-based course, the participant will be able to:

- Identify the signs, symptoms and mode of transmission of HIV, Hepatitis B, and Hepatitis C.
- Determine the risks of exposure specific to bloodborne pathogens and prevention methods.
- Explain basic infection control principles applicable, including proper disinfection process for environmental surfaces, patient equipment and prevention of spread of respiratory illness.
- Discuss updates to the Hazard Communication standard to align with GHS as it relates to labels, pictograms, and SDS.
- Review of the purpose and function of state and federal OSHA programs

Speaker

Karen Gregory, RN Director of Compliance and Education. Karen has over 20 years of experience working in the outpatient environment, both at the front line delivering patient care and in the management arena. She is passionate about both employee and patient safety, and takes every possible opportunity to improve the quality of healthcare for all involved. Karen is currently the Director of Compliance and Education for Total Medical Compliance where she develops compliance materials in addition to training consultants, as well as clients.
